THE RESPONSIBILITY.

New Fork Perss.—The time has come for the country to face the fasts in relation to the passage of the Repeal bill divested of fustian. While all manner of excuses are telegraphed to Cieveland organs, the men who write the dispatches, if they are even on the rim of the inner circle, must know the real cause of the trouble. It does not lay with the "Border Rufflaa" Senators. The rules—or rather the lack of rules—goveraing the Senate do not stop the way. These efforts to shift the blame of failure may sound pleasant to the ears of the man almost alone responsible for the financial and industrial disasters which have overtaken the properties of the state o

loya's supporters among the Democratic Senators. In short, his party is not with binn.

The Press does not undertake to say what the ostensible position of a majority of the Democratic Senators really is on the silver question, but it can speak authoritatively as to their attitude toward the man whose egotism, obstinacy and incompetency have in seven months wrecked a victorious party and changed the noon-day sun of prosperity for the chilliess of a deep shade of depression. The real difficulty about reneal arises from the fact that these old and tried Democratic leaders are to day in a state of revolt against the Administration and of personal hostility to the President. The sooner the country understands this the sooner it will appreciate the complexity of the present situation at Washington Deserted, betrayed, if you wish, by his was marty, which has adsolute control of
